WiebeTech Announces BayDock 800™: Four-Drive FireWire 800 Enclosure

Editors: Product photography can be found at <http://www.wiebetech.com/mediaphoto.html>

WICHITA, KS – March 30, 2003 - WiebeTech announces Quad BayDock 800™, a four-drive, hot swappable FireWire 800 / USB2 storage enclosure. Quad BayDock 800 features removable bays and sustained transfer rates over 100MB/sec when RAIDed, providing the highest performance available in any shipping FireWire product. Quad BayDock 800 is targeted at multimedia professionals who want extremely high performance swappable storage at a relatively low cost.

Quad BayDock 800 features latest Oxford firmware and is fully compatible with all recent operating systems, including Panther (OS X 10.3.1), OS 9.1, OS 9.2, Windows 98SE, ME, 2K, and XP and Linux. FireWire 800 usage requires OS X or Windows XP.
